

fording is a brief interval of sleighing. Down the river, the storm was more severe, delaying the arrival of many of the railroad trains.—*Battleboro Phoenix*, 24th inst.

THE SIEGE OF VIENNA.—The New York Tribune has the following remarks upon the state of affairs at Vienna:—

The attitude of the Republican city is in the highest degree heroic and inspiring. Surrounded on all sides by a triple army—exposed to an incessant bombardment and the attacks of the besieging forces—with the supplies cut off and the aqueducts in possession of the enemy—the people manfully hold out, and as yet have not lost an inch of ground. With a zeal, which it is impossible not to admire, they declare that the city shall be burned down over their heads, before they yield it to the Imperial troops.

Should they persevere in their resistance until the Hungarian army can effect an alliance with them, there is a cheering hope that this old stronghold will be lost forever to the dynasty which has so long held it. There has been no such crisis in the history of Vienna since the armies of John Sobieski and Kara-Mustapha battled under her walls, and we trust that the truly Christian cause may prevail now, as against numbers and the blind confidence of despotic power.

THE HADLEY FALLS DAM DESTROYED.—This immense structure thrown across the Connecticut at the "New City," nine miles north of Springfield, Mass., was forced from its foundation by the accumulating waters, on Thursday, the day of its completion, and the larger portion of it destroyed. The water had risen within a few feet of the top, when it broke through, and in a few moments nothing but a huge wreck remained of the largest structure of the kind ever erected in this country. It was over 1000 feet long about thirty high, and cost some \$75,000. A large manufacturing interest was dependent on it for motive power. Though many lives were endangered, none were lost.

THE PATENT OFFICE ROBBERY.—We understand that no persons have yet been arrested on suspicion of perpetrating the great robbery at the Patent Office. It appears that the diamond snuff box, in the attempt to detach it from the wire fastenings is the case, was wrenched and broken asunder. Fourteen of the diamonds were found in the case, which the thieves in the hurry of their departure left behind them.—*Nat. Intell.*

THE OLD THIRTEEN.—Gen. Taylor receives the votes of ten of the old thirteen States, to wit: Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, North Carolina, and Georgia.

SINGULAR DEATH.—Last week, on Thursday, a traveller died at the Centre Village in this town, suddenly, and singularly. The circumstances, as we gather them from a gentleman of the jury of inquest, are these: At about noon of that day he was at Melrose Falls, where he called for a glass of lemonade and dinner; expressing a desire to obtain a ride north he was taken into a carriage by the landlord, who was about starting in the same direction, and at Pannepie Village, took as it is reported, another glass of liquor. He reached French's Hotel at the Centre Village in this town about 6 o'clock; where he called for liquor and supper. He drank more than a tumbler full, and, as the day was cold, and the wind blowing, he was not too hot for him; and the supper being played about the same time, he was shown into the dining room, where he seated himself at the table. It was observed that he put a handkerchief to his mouth, and at the same time he called for a glass of water, when he leaned in his chair and soon fell to the floor. He was taken from the dining-room and left upon the floor of an adjoining room, where he was found the next morning, and in the same position in which he was left, as testified by the landlord who took him into the room. When left at the hotel he got out of the carriage and paid for his ride without manifesting any signs of intoxication.—*Calcedonia.*

COINCIDENCE.—The 7th of November was the anniversary of the battle of Tippecanoe, under the lamented HARRISON. It was celebrated by electing a Whig President of the United States.

ACCIDENT.—We learn from the *Battleboro Eagle* that a most distressing accident occurred at West Hammon, on the 12th inst. A lad named Harry Emerson, about 13 years of age, son of Geo. W. Emerson, accidentally fell under the fore wheel of a wagon, heavily loaded with stone. The wheel passed over his chest, inflicting internal injury which caused his death on Tuesday following.

TWO STATES FOR VAN BUREN.—A *Hunker* says that Van Buren has two states—the future and the fallen state!

THE VAN BUREN COURIER.—of to-day, calls Caleb Cushing, of Mass., a "putrescent renegade." Wonder what the Editor of that paper calls himself.—*Burlington Daily Free Press.*

HEALTH OF MR. CLAY.—We learn from reliable sources, that on the day of election Mr. Clay got up from a sick bed with a determination to go and vote for Gen. Taylor. He was, however, absolutely forbidden leaving his room by both of his physicians, who feared that any exposure would be attended with the worst results. We regret to hear that Mr. Clay continues seriously indisposed. His illness was of a much more severe character than we had supposed.—*Louisville Courier*, Nov. 14.

THE INFAMOUS MADAME RESTELL has been discharged from the Blackwell's Island penitentiary before one half of the term of her sentence had expired. She was pardoned by Gov. Young.

VT. CATTLE.—Within a few days, an enormous train of 44 cars from the centre of this State, loaded with cattle, arrived at the Lowell Railroad Depot in Boston, having come over the Vermont Central Railroad via Northern, Concord, Nashua and Lowell Railroad.

There will be no President of the United States on Sunday, the 4th of March next (Gen. Taylor's inauguration not taking place until the 5th). A national day of rest, strikes us as quite appropriate.—*Springfield Republican.*

FOREIGN NEWS.

New York, Nov. 25, 1848. P. M.

The *Cambrila* reached her dock at 10 o'clock, A. M.

There are to be the 11th. Ireland is quiet with the exception of the unrelenting war between landlord and tenant in many parts of the country. It is reported that an attempt was designed for the rescue of Smith O'Brien.

FRANCE.

The struggle for the Presidency will be between Cavaignac and Louis Bonaparte. 150,000 troops would assist at the proclamation of the Constitution in Paris.

Intelligence from Vienna to the 4th has been received. Vienna has surrendered to the Imperial troops after eight days siege, and the whole town was in their possession on the 1st of November.

Great loss of life and immense destruction of property took place during the bombardment.—Over thirty barricades were carried by storm. The students fought desperately and were only overcome by being shot down or hung in the street.

Many of the Hungarian troops went over to the Austrian army. Many of the leaders were taken in their attempt to escape. The battle between the Hungarians and Austrians which ended in the capture of the latter, is stated to have been very sanguinary.

On the 2d the Diet had dissolved itself, only 6 members being present at the Capital. The head-quarters of Windischgratz were still at Schonbrunn.

On the 4th the city was perfectly tranquil—the disarming was going on rapidly, and the barricades had been nearly removed.

ITALY.—All is in confusion, and several parts of Lombardy have risen against the Austrians. A proclamation issued in behalf of the Central Junta, was posted over Central Lombardy, invoking the people to rise against Austria.

It had excited a violent tumult at Genoa, which on the 28th was in full insurrection. In Prussia, some disturbances took place at Berlin on the 30th ult.—*Burlington Daily Free Press.*

NORTH CAROLINA LEGISLATURE.—The Legislature of this State will meet in Raleigh on next Monday. Politically, both branches are tied. This, we fear, will cause considerable jarring between the members of the two parties. A United States Senator, a Judge of the Supreme and a Judge of the Superior Court benches, and an Attorney General, are to be chosen.—If party lines should be closely drawn, we don't see how the thing is to be managed. We hope, though, that the members will act with discretion and wisdom.—*Wililmington (N. C.) Jour.*

GREAT CURE.

Mease, Geo. Stanton & Co., 121 N. 1st St., 1848. One who has been cured of the following disease, in Nov. 1847, I was taken with a severe pain in my back, which became a running sore, and continued until I was unable to get up. I was then taken to the hospital, where I was treated for some time, but without success. I then went to the house of Dr. W. P. Russell, and he cured me of the disease in a few days. I am now well, and I feel that I owe my recovery to Dr. Russell's treatment.

DR. WISTAR'S BALM OF WILD CHERRY.

This is a chemical extract of Wild Cherry and Turpentine. It is a powerful remedy for all kinds of rheumatism, neuralgia, and other pains of the system. It is also a good remedy for all kinds of skin diseases, such as eczema, psoriasis, and others. It is sold by Dr. W. P. Russell, 121 N. 1st St., New York.

ATTEND! Ye Lovers of Fine Flour.

The proprietors of the Grist Mill located at New Haven East Mills, would respectfully inform the community generally, that they have recently fitted up said Mill in first rate order. The whole establishment has undergone a thorough and radical change in its organization and machinery, under the supervision and direction of an experienced and scientific mechanic, of acknowledged ability. They would also modestly suggest that, after a somewhat protracted search, they have succeeded in finding a faithful, experienced, and (what is truly strange in this degenerate age) that *Rosa Aris*, an honest Miller. Extensive additions have been made to the machinery in all of its departments,—one entire new run of Stone, ball-chest, Cane Crusher, and many other improvements too numerous to mention. In short, the leading object has been (without reference to expense) to have (in plain English) a Good Mill and a Good Miller. We feel therefore prepared to say unequivocally to our friends and patrons generally, that our Mill is now in a first rate condition, (with suitable material), to furnish one of the grand essentials of domestic life, namely, the *Ship of Life*, either for the fastidious epicure or modern Grahamite. Will you give us an opportunity of furnishing practical proof of the genuineness of our professions? Try us for once, we humbly beg, and we feel confident that your future patronage is permanently secured.

Just Received

At the stores of the undersigned, a large and full supply of HERRICK'S SCAR COATED PILLS and Kid Strengthening Plasters.

These Pills are warranted under a penalty of 5,000 Dollars, not to contain any mercury or any mineral medicine. Our daily sales throughout the world have exceeded nine thousand boxes. Of our Kid Strengthening Plasters, the call for them is greater than our ability to manufacture. The utmost enthusiasm exists in all parts of the country. Our Agents are gentlemen of the first respectability; they are good neighbors, and we know them. Persons wishing to use the best family pill ever known should by these, call on our agents, purchase a box, should they not please you return them and get your money.—We have received at the principal office within the last year, certificates of more than 35,000 cures performed by HERRICK'S PILLS and Plasters, over 10,000 of them were considered beyond all hope. They are the cheapest and best pills known. Each pill is beautifully coated with pure white sugar. Each box contains 30 pills, a smaller number is required for a dose than of any other pill known, their operation being so certain, thorough, yet mild, that all who use them recommend them. Owing to the immense popularity and gigantic sales of these pills some unprincipled persons have made something like Sugar Coated Pills, and we understand some are for sale in this part of the country. We have observed another pill floating around the country, called the Indian Vagabond pill, made without doubt to sell for HERRICK'S Vegetable pills, look out for frauds, some of these men attach the word Doctor to their names to give them the appearance of respectability. Always ask for HERRICK'S SUGAR COATED PILLS and get them or none. Our pills sell for 25 cts. per box, with full directions; our Plasters 18 3/4 cts. All orders must be addressed to HERRICK & CO., Principal Office No. 66 James Street, Albany, N. Y. The following gentlemen are our agents:

Wm. P. Russell, Middlebury; Ira Bingham, Cornwall; J. F. Benson, Whiting; L. C. Sawyer, Sudbury; J. W. Parmelee, Bristol; A. P. Roscoe, New Haven; Kent Wright, Shoreham; P. P. Fletcher, Bridport; W.
